

**Listings of equations, figures, tables and
sections of the article 'Musical elements in
the discrete-time representation of
sound' and of the scripts in the MASS
toolbox**

Renato Fabbri (USP),
Vilson Vieira da Silva Junior (The Grid),
Antônio Carlos Silvano Pessotti (Unimep),
Débora Cristina Corrêa,
Osvaldo N. Oliveira Jr. (USP)

July 30, 2017

The article is the main document of the MASS toolbox. Being it of considerable length and complexity, this document contains listings of its elements to facilitate its navigation, apprehension and general usage.

Contents

SI-1	Table of Contents of the article	4
SI-2	Equations	5
SI-3	Figures	6
SI-4	Tables	7
SI-5	Scripts	8
	SI-5.1 For all equations in each chapter	8
	SI-5.2 To render musical pieces	9
	SI-5.3 To render the figures used in the article	10
SI-6	Other documents	11
SI-7	Final considerations	11

SI-1 Table of Contents of the article

Abstract	1
1 Introduction	2
2 Characterization of the discrete-time musical note	5
2.1 Duration	5
2.2 Loudness	5
2.3 Pitch	6
2.4 Timbre	7
2.5 Spectrum of sampled sound	10
2.6 The basic note	13
2.7 Spatial localization and spatialization	14
2.8 Musical usages	17
3 Variation in the basic musical note	18
3.1 Lookup table	18
3.2 Incremental variations of frequency and intensity	20
3.3 Application of digital filters	22
3.4 Noise	26
3.5 Tremolo and vibrato, AM and FM	29
3.6 Musical usages	33
4 Organization of notes in music	36
4.1 Tuning, intervals, scales and chords	37
4.2 Atonal and tonal harmonies, harmonic expansion and modulation	42
4.3 Counterpoint	45
4.4 Rhythm	46
4.5 Repetition and variation: motifs and larger units	48
4.6 Directional structures	50
4.7 Cyclic structures	51
4.8 Musical idiom?	52
4.9 Musical usages	53
5 Conclusions and further developments	53
Acknowledgments	54
References	54

SI-2 Equations

SI-3 Figures

SI-4 Tables

SI-5 Scripts

SI-5.1 For all equations in each chapter

SI-5.2 To render musical pieces

SI-5.3 To render the figures used in the article

SI-6 Other documents

Latex files. PDF files. MSc Dissertation.

SI-7 Final considerations
